

John Wilkins was a gentle, mild-mannered man who lived a simple, predictable life. So when he met a beautiful, irresistible girl his world was turned upside down. Looking at his wife, and thinking of the girl, everything turned red before his eyes – the colour of murder. Later, his mind a blank, his only defence was that he loved his wife far too much to hurt her – A book to delight every puzzle-suspense enthusiast – The New York Times

The Author: Julian Symons was born in 1912 in London. He was the younger brother, and later biographer, of the writer A.J.A. Symons. Aged twenty five, he founded a poetry magazine which he edited for a short time, before turning to crime writing. This was not to be his only interest, however, as in his eighty-two years he produced an enormously varied body of work. Social and military history, biography and criticism were all subjects he touched upon with remarkable success, and held a distinguished reputation in each field. Nonetheless, it is primarily for his crime writing that he is remembered. His novels were consistently highly individual and expertly crafted, raising him above other crime writers of his day. He commenced World War II as a recognised conscientious objector, but nevertheless ended up serving in the Royal Armoured Corps from 1942 until 1944, when he was invalided out. A period as an advertising copywriter followed, but was soon abandoned in favour of full time writing. Many prizes came his way, including two Edgar Awards and in 1982 he received the accolade of being named as Grand Master of the Mystery Writers of America – an honour accorded to only three other English writers before him: Graham Greene, Eric Ambler and Daphne Du Maurier. Symons then succeeded Agatha Christie as the president of Britain's Detection Club, a position he held from 1976 to 1985, and in 1990 he was awarded the Cartier Diamond Dagger from the British Crime Writers for his lifetime's achievement in crime fiction. He published over thirty crime novels and story collections between 1945 and 1994; with the works combining different elements of the classic detective story and modern crime novel, but with a clear leaning toward the latter, especially situations where ordinary people get drawn into extraordinary series of events – a trait he shared with Eric Ambler. He also wrote two modern-day Sherlock Holmes pastiches. In *A Three Pipe Problem* the detective was – ...a television actor, Sheridan Hayes, who wears the mask of Sherlock Holmes and assumes his character. Several of his works have been filmed for television. Julian Symons died in 1994.
